DAN,

Thanks very much. No rush just wanted to check in. Sending the spreadsheets electronically would be great.

We had severe weather last week. I was without power for 2 days. My internet, cable and house phone are still out. However, my office phone is working.

Thanks again for your continued assistance.

I sent the material for copying but do not have it back yet. It was not a rush job.  
By the way, a couple volumes had spreadsheet material which was only part of the electronic information provided to us. I did not have all of it printed for the file that you reviewed. I can send all the spreadsheets electronically if you want.  
Let me know.

Dan,

Thank you once again for allowing me to review your files. I found it very helpful.

Last Thursday I left at your desk the files that I needed copied as well as the files that I was returning without a copy request.

Please confirm that you saw these materials and that the request to copy has been made.

I appreciate your assistance in this matter.

Enjoy your evening.

Dan,

I am going to be in Novato on 12/4/08. I expect I will be in the office in the afternoon. Would it be possible for me to take a look at your Gould Pumps file to determine what I would like copied for the captioned Assumed Re matter?

Thanks.

Cristy: Following our call of today, the file contains 3 blue, 1 green (spreadsheets which I have in electronic form), 1 yellow, and 1 orange volume. There is also a volume with green (lists of tendered cases), yellow (policies) and orange in it. There is a coverage chart in both the blue and yellow volumes.

the file? I also need to know if there is an underwriting file?

Can you give me a call?

Thanks.

Richard and Dan

Good morning.

I am in need of some assistance.

It is my understanding Dan has an open excess file for Gould Pumps, claim #105-00-136976. I have just been assigned an assumed reinsurance matter involving this insured and I need a copy of this file. Could someone give me a call so that I can get an understanding of how big the file is and make a decision about how much of the file I need copied?

Thanks and I appreciate your assistance.
